Who we are

Northern Policy Institute is Northern Ontario's independent, evidence-driven think tank. We conduct research, analyze data, and disseminate ideas. Our mission is to grow Northern Ontario by supporting evidence-based decision-making through education and direct community engagement.

We believe in partnership, reconciliation, collaboration, communication, and cooperation. Our team seeks to do inclusive research that involves broad engagement and delivers recommendations for specific, measurable action. Our success depends on our partnerships with other entities present in or passionate about Northern Ontario.

Our permanent locations are in Thunder Bay and Timmins. During the summer months, we have satellite offices in other regions of Northern Ontario staffed by teams of Experience North placements. These placements are for university and college students working in your community on issues important to you and your neighbours.

Vision

A growing, sustainable, and self-sufficient Northern Ontario. One with the ability to not only identify opportunities but to pursue them, either on its own or through intelligent partnerships. A Northern Ontario that contributes both to its own success and to the success of others.

Mission
