Who we are

Northern Policy Institute is Northern Ontario's independent, evidence-driven think tank. We perform research, analyze data, and disseminate ideas. Our mission is to enhance Northern Ontario's capacity to take the lead position on socio-economic policy that impacts our communities, our province, our country, and our world.

We believe in partnership, reconciliation, collaboration, communication, and cooperation. Our team seeks to do inclusive research that involves broad engagement and delivers recommendations for specific, measurable action. Our success depends on our partnerships with other entities present in or passionate about Northern Ontario.

Based in Thunder Bay, Sudbury, and Kirkland Lake; NPI is active in every region of Northern Ontario. During the summer months we have satellite offices in communities across Northern Ontario staffed by teams of Experience North placements. These placements are university and college students working in your community on issues important to you and your neighbours.

Vision

A growing, sustainable, and self-sufficient Northern Ontario. One with the ability to not only identify opportunities but to pursue them, either on its own or through intelligent partnerships. A Northern Ontario that contributes both to its own success and to the success of others.

Mission

Northern Policy Institute is an independent policy institute. The objects for which the corporation is incorporated are:

- To advance education on the topic of sustainable growth in Northern Ontario, including sustainable growth for First Nations, Métis, and Inuit people & communities in Northern Ontario, by conducting research and analysis in the field of economic, technological and social trends and then making the results publicly accessible,
- To advance education by providing internship positions to youths within Northern Ontario and by holding meetings, and conferences for the general public, media and government officials; and,
- To do all such things as are incidental or ancillary to the attainment of the above objects.
